What is Hybrid Certification?

Supporting teaching and learning by combining Technology, Pedagogy, and Peer Support.

Part 1. TCU Online Skills

Complete either Option A **OR** B to fulfill Part 1:

Option A: (2-3 hours)
Complete the TCU Online: Skills Demonstration Project

Find instructions with video tutorials in the Ramping Up Rapidly course in TCU Online.

Option B: (6 hours)
Attend BOTH workshops
• Building Your Course
• Managing Your Course

Register for these workshops and others on the Events page at Koehler.tcu.edu.

Part 2. Hybrid Design & Delivery Course

Complete the 4 activities to fulfill Part 2:

• Quiz: Distance Education Regulations

• Assignment: Three-Component Syllabus Abstract

• Assignment: One Student-to-Student Activity and Rubric

• Assignment: Instructor Engagement Plan

The Hybrid Design & Delivery Course is a self-paced course and can be found in TCU Online with all assignment instructions, quiz, and submission folders.

Part 3. Consultation

After completing the 4 activities in the Hybrid course, you will meet with an eTrainer for a consultation. Your eTrainer will assist with designing high-quality, engaging courses that reflect disciplinary practices and insight.

This is your time to meet a new colleague, ask questions, develop ideas, and get support from a peer.
